The tariff commission will report to Congress early in December.

SUBROGENT GENERAL BARNES is rapidly recovering from his recent serious illness.

The gossip says that General Sherman is regularly in the race for the Presidency.

The Memphis Ledger thinks that if Senator Jackson is made of the nettle it thinks he is, "he will certainly resign."

The friends of cheap postage will make a strong effort at the coming session of Congress to reduce the letter rate from three to two cents.

The Nashville World says if the Legislature does not settle the debt at 50-3, that the next fight will be that or nothing, "with the odds in favor of nothing."

The "veteran journalist" mentioned as the probable Superintendent of Public Instruction under Bate's administration, is said to be Mr. Knight, of the Nashville World.

If Governor Bate decides to become a candidate for United States Senator and plays his cards right, he will make it mighty interesting for Isham G. Harris. He has always had a strong personal following, and as Governor will be able to form combinations that would be hard to overcome. The Senate has been the goal of his ambition for years, and now, that the prize is within his reach, the temptation will be hard to resist. We do not know that he will offer any resistance.

THE EAST TENNESSEE, VIRGINIA AND GEORGIA ROAD.

What This Great Corporation Did During the Last Fiscal Year.

The annual statement of this company for the fiscal year ending June 30th, shows:

Gross revenue from 900 miles of road, excluding that from portions under construction and in hands of contractors, \$3,145,482.38; expenditures, deducting material on hand, \$1,862,022.39; net revenue, excluding that from divisions under construction, \$1,283,460; surplus after paying interest on first mortgage and in come bonds, \$162,000; passengers transported, excluding those on Macon and Brunswick division, 528,403; tons freight, excluding Macon and Brunswick division, 916,000.

The report of Vice-President and General Manager Henry Fink reviews improvements in the company's property. The entire line has been put in a safe condition. Further improvements will be made in replacing iron by steel rails and wooden by iron bridges. During the year 8,700 tons of steel rails were laid, making 333 miles of steel track, exclusive of 178 miles of the Cincinnati and Georgia division and the Knoxville and Ohio division, which are all steel. A commodious wharf and warehouse have been built at Brunswick, Ga., which is one of the best harbors on the Atlantic.

The condition of the country traversed by the road has greatly improved during the year. The coal and coke industry has increased materially along the line of road, and immense returns from the development of mineral resources and manufacturing interests are expected in the near future.

During the year the Shenandoah Valley Road was completed to a connection with the East Tennessee at Roanoke, and a triplicate agreement made between the East Tennessee, Shenandoah Valley and Norfolk and Western, giving a through line to the East. The North Carolina division was opened to a connection with the Western North Carolina road May 9th, 1882.

President Thomas, Samuel Shethar and General Manager and Vice President Henry Fink are examining the property and its prospects for the ensuing year. A careful estimate of the gross earnings for the ensuing year, including the revenue to be derived from the Cincinnati and Georgia division, the Knoxville and Ohio division, will be completed in January to a connection with the Kentucky Central, giving a direct line to Cincinnati.

The equipment has been increased by about 1,000 cars and 30 locomotives. The general manager telegraphs that in spite of this increase the company does not possess sufficient equipment to provide for one-half the freight offered, so great has been the increase in business.

Good Advice.
You will prevent and cure the greater part of the ill that afflicts mankind in this or any section, if you keep your stomach, liver and kidneys in perfect working order. There is no medicine known that does this as surely as Parker's Ginger Tonic. It will keep your blood rich and pure, and give you good health at little cost. See other columns.

Boiler Explosion.

NEW ORLEANS, November 21.—On Saturday morning one of the boilers at the Fairwood plantation, Pointe Coupee Parish, exploded and instantly killed the engineer, Carmille Bourgeois, and fatally injured two negro laborers.

MEMPHIS AND CHARLESTON ROAD.

Election of a Board of Directors.
Jere Baxter, of Nashville, Elected President.

MEMPHIS, November 22.—The stockholders of the Memphis and Charleston Railroad met this morning, Hon. Jere Baxter, vice-president of the road, read the annual reports showing how far the board of directors had proceeded in effecting a compromise of the lease of the road to the E. Tenn. & Ga. Co. The report stated that the tender of the requisite money, \$400,000, had been made and the cancellation of the lease was only temporarily delayed by an injunction suit of B. C. Brinkley's executor. The report was adopted, and the following were then elected a board of directors: Jere Baxter, G. W. Flagg, Wm. Duncan, of Nashville; T. W. Evans, H. E. Gorth, W. T. Hatch, Simon Borge, of New York; Napoleon Hill, H. D. Fraser, J. A. Hayes, Jr., W. V. Farrington, of Memphis; W. R. Rison, of Huntsville, Ala.; John S. Wilkes, of Pulaski, Tenn. 167,779 shares were represented, which is over three-fourths of the capital stock of the road. The board of directors organized by electing Jere Baxter president and S. R. Cruse secretary.

Extensive Frauds Discovered.

NEW ORLEANS, November 22.—Last evening a meeting of the campaign committee of the independent party, if their candidates on the municipal ticket was held to receive a report of the committee appointed at a previous meeting to copy registration lists and compare the same with the poll lists. This committee reported the discovery of extensive frauds in all the wards, hundreds of persons, dead or absent from the city, being, they say, recorded as having voted. This, together with stuffing of ballot-boxes, convinces the committee that if thorough investigations were held, followed by prosecution, it would result in proving before the courts the election of the independent ticket. A committee of five was appointed to wait upon all candidates, and urge them to serve notices of contest without further delay. Another committee was appointed and authorized to employ all clerks necessary for a thorough canvass of every ward in the city, for the purpose of ascertaining the names of all who voted, for whom their ballots were cast, and to procure a list of all those whose names were recorded as having voted but who did not vote.

The Iron Interest.

PHILADELPHIA, Pa., November 21.—The Philadelphia iron and steel men do not believe that the reports from the interior and the West mean a general depression in the industry. Every ruling mill in the city is now turning out full time and there is no prospect of a reduction of wages or working time. At the monthly meeting of the proprietors of the rolling mills of the city yesterday the price of iron for the ensuing month was fixed at 25-100 per pound, a reduction from the last fixed rate in February, of 2-100 of October. According to the schedule of wages agreed upon in 1878 between the manufacturers and workmen the reduced price of iron brings the workmen's wages down five per cent. This reduction will go into effect on the first Monday in December.

Shot and Killed.

LITTLE ROCK, Ark., November 21.—At 7 o'clock this morning, at the Western Hotel, in Arkansas, opposite this city, two railroad pile drivers, employed by the Memphis and Little Rock Railroad, named Patrick Farden and H. F. Brandon, quarreled over the payment of a whisky bill. Farden, according to Brandon's statement, drew a knife on the latter, who retreated into the saloon and shot twice, when Farden fell dead. Brandon gave himself up.

Suppressing Sunday Theatres.

CINCINNATI, O., November 22.—In the Police Court this morning, Manager James Fennessy, of the Coleman Theatre, with eleven others, who appeared in performance given on Sunday, at that theatre, were arraigned for a violation of the law. Other theatres were open on Sunday, but no other arrests have been made, the intention being to make a test of this case. The trial was postponed until Friday afternoon.

The Charges Against Arabi Pasha.

LONDON, November 21.—The formal charges against Arabi Pasha, cited articles of the Ottoman Penal and Military codes. Messrs. Brodley and Napier, in their letter to the Times, contend that to be convicted under those codes, the rebels must have waged war against the Sultan.

Funeral of a Bishop.

NEW YORK, November 22.—The Evening Post's special from Vincennes, Ind., says the body of the late Bishop Deibelander was buried under the altar of the Cathedral this morning with great pomp. Four Bishops and an immense crowd were present.

Decapitated.

ROCHESTER, N. Y., November 22.—A workman in the Furnaceville ore beds, on the Rome, Watertown and Ogdensburg Railroad, was decapitated by a switch engine last evening. His name has not been learned.

TRAIN WRECKED.

Death of a Brave Engineer.

FREDRICKSBURG, Va., November 21.—A north-bound freight train on the Richmond, Fredericksburg and Potomac Railroad was wrecked to-day, near Hamilton's crossing, about four miles south of this place, by running upon a section where the track had been taken up to be relaid. The engine and five cars were thrown down an embankment ten feet high and completely wrecked. Engineer James Young, the oldest engineer on the road, did not leave his engine, which overturned upon him, killing him instantly. The fireman escaped by jumping from the engine. The passenger trains are making transfers around the wreck to-night.

Fire in Providence.

PROVIDENCE, R. I., November 21.—A fire broke out this morning in the Calendar building, on Sabin street, occupied in part by jewelers' shops. Ladders were slow in arriving and a panic occurred among the girls in the shops, several jumping from the windows. Two were killed and six or seven fatally injured.

The fire this morning was caused by the explosion of naphtha on the third floor of the Calendar building, a four story structure. At the end of this building there was a two story frame building. A fifteen foot alleyway separated the two. When the fire broke out the operatives in the fourth story ran to the windows and leaped across the alley for the roof of the lower building. Many of them fell short and dropped to the ground. One woman struck on a picket fence and was fatally injured. Two women were killed outright. Five others are in the hospital, insensible, and will probably die. The casualties will probably number twenty. The loss of property is comparative ly insignificant.

Railroad Accident.

COLUMBUS, Ohio, November 22.—The St. Louis limited express, east, leaving at 12:05 this morning, on the Pittsburgh, Cincinnati and St. Louis Railroad, was wrecked near a station twenty-six miles east of this place, by a rail which had been placed across the track. The accident happened shortly after one o'clock. The express was pitched down an embankment over thirty feet, turning twice over and landing in a field. Two postal and baggage and passenger cars were thrown to the bottom of the hill a confused wreck. No person was fatally injured, but a great many persons suffered from broken bones and bruises.

Yellow Fever.

PENSACOLA, Fla., November 22.—One death from yellow fever, that of a sailor, is reported to-day. No new cases have been reported. The weather is cool and clear, with a fair promise of a killing frost.

Girl Kidnapped.

GALVESTON, Tex., November 21.—A dispatch from Austin to the News says: A daughter of Col. J. S. Ford, superintendent of the deaf and dumb asylum, was kidnapped and bound, and carried as far as the bridge over the Colorado River, and there her abductors left her. She was found and brought back to the city. Detectives are on the track of the kidnappers.

Couldn't Indict the Polygamists.

NEW YORK, November 22.—A Salt Lake special says: The grand jury of the United States Court has been discharged. It reports that it is unable to find indictments for bigamy, as it is impossible to procure witnesses or get access to the marriage records, on account of local prejudice against punishing polygamists.

Premonition Realized.

MONTREAL, November 22.—Mrs. Stewart, whose husband was drowned in the Lachine Canal sometime ago, told a neighbor this morning that she was going to die during the day. She begged a woman to remain with her, as she had a horror of dying alone. To the surprise of her neighbors, she died shortly before eleven o'clock.

Stabbing Affray.

LITTLE ROCK, Ark., November 22.—At Denton's Mill, Scott County, on Monday, a stabbing affray occurred between John M. Walker and Albert Crutchfield, two farmers. Both were terribly cut. Walker died yesterday from his injuries, and it is believed that Crutchfield is mortally wounded.

Sentencing a Lawyer.

NEW YORK, November 22.—Abraham Marks, a lawyer, who attacked an opposing lawyer in open court, was sentenced to-day to 30 days imprisonment for contempt of court. He had previously apologized, but the Judge refused to accept the apology as sufficient.

The Glasgow Bank.

GLASGOW, November 21.—The final meeting of the shareholders of the City of Glasgow Bank was held to-day. The liquidation has been finished and all the depositors having been paid 20 shillings in the pound.

Death of Thurlow Weed.

NEW YORK, November 22.—Thurlow Weed died this morning at 8:55.

RICHMOND.

Death of a Prominent Journalist.

RICHMOND, November 21.—James A. Cowardin, founder and senior editor of the Dispatch, died at half past 4 o'clock this afternoon in the 72nd year of his age, after an illness of over three years. Deceased was born in Bath County, and went into the printing business, when thirteen years old, and from the age of twenty-one was prominently identified with the press of Virginia, having at one time been the private secretary of Thomas Ritchie, who was known as the father of Democracy. For one term, the only time he ever consented to enter personally into politics, he represented the city of Richmond in the General Assembly. He was instrumental in the establishment of several papers, of which the Dispatch, first issued by Cowardin & Davis, on October 19th, 1850, survives, and the editorial chair of which he occupied from its foundation until October 18th, 1879.—29 years. The funeral will take place Thursday morning from St. Peter's Cathedral.

A NEWSPAPER IN TROUBLE.

Damages to the Amount of a Hundred Thousand Wanted.

NEW HAVEN, Conn., November 21.—Papers were to-day served on the proprietors of the Union by Town Clerk Shuster, claiming \$80,000 damages for libel, and attaching their property. The alleged libel was contained in editorial articles, in which Shuster was accused of exacting estimate fees for official services. Another suit has been brought by the Register against the Union, claiming \$20,000 damages. The Union alleged that the Register's share in the profits from advertising were as large as Shuster's in demanding estimate fees.

American Shipping.

NEW YORK, November 21.—After the conclusion of the public hearing by the joint select Congressional committee on shipping, this afternoon, the committee, in private session, discussed various points presented by those who appeared before the committee, so far as they related to legislative obstruction to the successful running of American vessels in foreign trade after they are built. The committee unanimously concurred in the opinion that all such legislative obstructions should be removed.

The points discussed were the provisions of law relating to the payment of three months' extra wages, advance wages, compensation for the transportation of shipwrecked and other seamen, the reduction of the hospital tax, reduction of customs duties on vessels, individual liability of shipowners, consular fees, to vessels, tonnage tax, rebate of duties on supplies to American vessels engaged in foreign trade, and a modification of the law relating to compensation to vessels engaged in the foreign trade for carrying mails. Senator Conger and Representatives Cox and Dingy were appointed a sub-committee to draft a bill and to report covering these points in accordance with the views expressed by the committee, and they were so instructed to report to the full committee at an adjourned meeting to be held in Washington on Saturday, December 2d. It is intended to have the committee report at the opening of Congress on the above subjects. The questions relating to free ships and the rebate of duty on materials for building vessels to be employed in the foreign trade were reserved for consideration at the adjourned meeting of the committee.

Killed by a Falling Stone.

Boston, November 21.—John Jay and Timothy Callahan were instantly killed this afternoon by the falling of a large stone in the granite quarry of O. F. Rogers' granite works at West Quincy. Both men leave large families.

MINOR DISPATCHES.

GALVESTON, Tex., November 21.—Mrs. Lubback, wife of ex-Governor Lubback, has been stricken with paralysis.

NEW YORK, November 22.—A Henderson, Tenn., special says six business buildings were burned last night. Loss, \$20,000.

It seems impossible that a remedy made of such common, simple plants as Hops, Buchu, Mandrake, Dandelion, etc., should make so many and such great cures as Hop Bitters do; but when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer.

Revival at Friedville.

From our friend Mr. W. M. Sexton, we learn that a revival meeting is going on at Friedville, Blount County, conducted by Rev. Jesse McPherson and J. B. Jones. It is hoped that success may crown their efforts.

Shoemaker & Caldwell.

Have removed to their new quarters, east side of Market Square, adjoining the drug store of Albers & Co., and want everybody to call and see them. They intend keeping a first class stock of groceries, and sell them cheap.

There was a decided rush and demand yesterday morning for seats for St. Louis, and the sale was very successful for a packed house. There are a few desirable seats yet to be had.

A Seasonable Publication.

The Fall number of Ehrich's Fashion Quarterly will be found particularly useful to all ladies who contemplate the most delightful of feminine occupations—shopping. Within the compass of its one hundred and twenty pages, it contains a compendium of the whole art and mystery of retail purchasing, giving descriptions of the latest styles in every department, with a complete list of prices, and a really bewildering array of illustrations. Aided by this useful publication, a lady can plan out her shopping for the season, with an absolute certainty that no necessary item will be overlooked, and that every dollar will be made to do its full and utmost duty. Whether she make her purchases by mail or from storekeepers nearer home, the Fashion Quarterly is equally useful. In either case it shows her just what styles are fashionable, as well as which are most economical, and, studying its pages, a lady can adapt her expenditure to her means, and avoid the vexation of finding, too late, that unwitting extravagance in one direction entails inconvenient economy in another.

The Fashion Quarterly is published by Ehrich Bros., Eighth Avenue, New York, at 50 cents a year, or 15 cents a copy. It is simply worth its price.

Nothing so simple and perfect for coloring as the Diamond Dyes.

"Edgewood Falls," as produced at the New Haven Opera House last evening by Sol Smith Russell and his company, was the most thoroughly enjoyable performance we have had here this season, and it is doubtful if we have a better one during the year. It is as bright, sparkling and full of life as a glass of champagne. The fun is unremitting from the rise of the curtain to the fall, and it never ceases to be so good advantage as he does in the play. Mr. Russell has gathered about him a company of not merely actors, but artists, and their work is done carefully and honestly. A more enjoyable and perfect performance could not be asked for.—New Haven Register, Sep. 30th.

Absurdly Stupid and Foolish.

to allow prejudice or ignorance to get the better of good judgment. It has been amply shown and conclusively proven that bad teeth, bad breath, dyspepsia, kidney affections and all diseases of the liver, stomach and bowels have been cured and can be cured by simply taking Simmons Liver Regulator. It is harmless; not unpleasant and easily procured—so there is no reason to be ignorant of a true remedy. If you suffer, you have no excuse, for this medicine places certain relief and cure within your reach.

MARKETS BY TELEGRAPH.

New York Stock Market.

NEW YORK, November 22.—The stock market opened strong and the quotations, the latter for St. Paul, Minneapolis and Manitoba. In early trade the market still continued steady and a further advance of 3/8 per cent. took place, in which Northwest, Lake Shore, Indiana, Bloomington and eastern, and Michigan Central were most conspicuous. But subsequently the list became weak and at 11 o'clock Michigan Central and Northwest fell 2, Lake Shore 1/2 and the remainder of the list 1/4 per cent. The latter for Canada Southern and Delaware and Lackawanna and Western.

SIMMONS' LIVER REGULATOR.

For Dyspepsia, Constipation, Sick Headache, Chronic Diarrhoea, Jaundice, Biliousness, Dropsy, Nervousness, Indigestion, and all Diseases of the Liver, Stomach and Bowels.

SYMPTOMS OF A DISEASED LIVER.

Bad Breath; Pain in the Side, sometimes the head is fetid under the forehead; nausea; general loss of appetite; Bowels generally constipated, sometimes alternating with laxity; the head is troubled with pain, is dull and heavy; with considerable loss of memory, accompanied by a painful sensation of heaviness and oppression which would have been borne; a slight, dry cough and flushed face; sometimes an enlargement of the spleen; sometimes a patient complains of nervousness and debility; nervous, easily startled; fear cold or burning; sometimes a prickling sensation of the skin; spirits are low and despondent, and, although satisfied that exercise would be beneficial, yet one can hardly summon up spirits to do it; sleep, disturbed every night. Several of the above symptoms attend the disease, but cases have occurred when but few of them existed, yet examination after death has shown the Liver to have been extensively diseased.

It should be used by all persons, old and young, whenever any of the above symptoms appear.

Persons Traveling or Living in Unhealthy Localities, by taking a dose occasionally to keep the Liver in healthy action, will avoid all Malaria, Bilious attacks, Diarrhoea, Nausea, Dropsies, Depression of Spirits, etc. It will invigorate the blood, and is a most intoxicating beverage.

If you have eaten anything hard of digestion, or feel heavy after meals, or sleepless at night, take a dose and you will be relieved.

Time and Doctors' Bills will be saved by always keeping the Regulator in the House.

For whatever the ailment may be, a thoroughly safe, purgative, and tonic can never be out of place. The remedy is harmless and does not interfere with business or pleasure.

IT IS PURELY VEGETABLE. And has all the power and efficacy of Calomel or Quinine, without any of the injurious after effects.

A Governor's Testimony. Simmons' Liver Regulator has been in use in my family for some time, and I am satisfied it is a valuable addition to the medical science.

Hon. Alexander H. Stephens, of Georgia. Says: Have derived some benefit from the use of Simmons' Liver Regulator, and wish to give it a further trial.

"The only thing that never fails to relieve me," I have used many remedies, but never have found anything so beneficial as Simmons' Liver Regulator. I sent from Minnesota to Georgia for it, and would send further for it, and would advise every one suffering from such ailments to give it a trial as it seems the only thing that ever fails to relieve me.

P. M. JANNEY, Minneapolis, Minn.

Dr. T. M. Mason says: From actual experience in the use of Simmons' Liver Regulator in my practice I have been and am satisfied to use and prescribe it as a purgative medicine.
